Guidelines of the project delivery

ROTORTHON 2025 Physical Challenge

V1.0

04/08/2025

EUROAVIA International

Table of Contents

1 Introduction

The Rotorthon competition focuses on innovation in the VTOL sector.

The online challenge is a forty-eight (48) hours challenge, at the end of which the teams shall deliver their solution to the problem proposed.

The topic of the online challenge is proposed by one of the Technical Jury members and agreed on by the rest of the Jury.

2 Delivery

2.1 Required material

The teams are required to deliver the following:

1. Presentation explaining their solution. The presentation shall be in .pdf or .pptx format and of maximum 20 slides. A template for the presentation will be provided.

2.2 Delivery Procedure

The material shall be delivered via email to rotorthon.2025@euroavia.eu .

All material must be delivered prior to the deadline, and no late deliveries are accepted.

3 Evaluation process

In the morning of the following day (Thursday, September 20th), the teams shall showcase their presentation to the Technical Jury. The presentation shall last no longer than 15 minutes, and is followed by a Q&A session with the Technical Jury.

The quality of both the solution and the materials is accounted for.

The winner of the online challenge is announced after all solutions have been revised.
